Coordinators and 19 Area
Coordinators

NUTRITION

Dear Friends

With great pleasure, THP-B has inaugurated 1000 Days Nutrition Program to ensure nutrition support for 7200 pregnant & lactating mothers of 40 Union Parishads in Bangladesh in 2013.

In this process, an orientation to key staff members of THP-B was held on 5 May, 2013. The orientation contained facilitation on the information concerning the program and a detailed discussion on step by step implementation process, to be initiated by THP-B from late May or the early June of 2013.

The program would be conducted in 2 separate phases. In the 1st phase, a 2 day's local level training will take place in each of the 40 Ups. Through this training, approximately 720 Women Leaders will be trained on ENA & EHA. In the 2nd phase, these trained Women Leaders will arrange at least 1 courtyard meeting at 360 wards of the selected 40 Ups, through which, around 7200 pregnant & lactating mothers and their family members will be sensitized on maternal and child health and the issues related to ENA & EHA.

THP-B has produced a set of featured IEC materials and manuals for the convenience of the program at the intervention areas which were demonstrated to the participants during the orientation. The set includes a handheld Flipchart on ENA & EHA and a manual developed on the process of conducting Court Yard Meeting.
